# WHAT IS DATA?

Information from a person (name, address, opinions, photos, videos, ...

WHICH DATA IS SHARED WITH WHOM?

DATA IN THE RESEARCH PROJECT

In the project the following data will be collected:
- Audio recordings
- Transcripts
- Videos
- Photos
- Protocols

all data

↓

anonymised or pseudonymised data

Research Group
e.g. of the University, or an organisation or co-researchers

→ has access to all of the data and saves them

Research Institute XY

→ has access to some of the original data e.g. another research institute responsible for the evaluation

other researchers

→ pseudonymised data (protocols and transcripts) and anonymised data e.g. in research collaborations or joint analysis sessions

Public

→ Excerpts from pseudonymised protocols/transcripts & anonymised photos/videos e.g. in reports or newspaper articles

pseudonymise= real names or other information that identifies a person are replaced by fantasy names or deleted

anonymise = there is no personal information of persons e.g. a photo of hands or an anonymous statement
